FOR IMMEDIATE RELEASE

Evening Closures Scheduled for Connector between I-15 and Westbound 91 Freeway

Motorists on Interstate 15 seeking to connect to the westbound 91 will encounter evening closures this weekend as part of the Riverside County Transportation Commission's 91 Project.

The connectors between northbound and southbound Interstate 15 and westbound 91 will close at 9 p.m. this Saturday night. The closures will extend to approximately 8 a.m. on Sunday morning, when vehicles will be shifted to the new temporary connectors.

Crews are building temporary connectors between the two roadways to allow crews to build future permanent ramps that will accommodate more traffic. **As a detour, drivers should take the eastbound 91 to McKinley Street, turn left and enter the westbound 91.** (Please see detour maps on next page). Reconstruction of the 15/91 Interchange is one of the key structures of the 91 Project, which began full construction last month and is expected to be completed by 2017. The future interchange will feature "collector-distributor roads" to eliminate much of the weaving and merging between lanes in this area.

For more information, visit sr91project.info or call the helpline at 877-770-9191.
