FOR IMMEDIATE RELEASE

Santa Ana River Trail Parking in Corona to Change during Construction

Work occurring for the Riverside County Transportation Commission's 91 Project in Corona will affect parking for the Santa Ana River Trail (SART), beginning this month.

Starting in late December, the current SART parking area along Green River Road will be eliminated. However, a new temporary parking area just east of the Green River Golf Club entrance will be provided.

This parking configuration will remain in place until a new permanent parking lot is constructed west of the Golf Club entrance. The permanent lot will include 56 ADA-compliant parking stalls, sidewalk, curbs and drinking fountain.

SART access will remain open during construction, which will continue in this area through late 2015, weather and other operational factors permitting. Crews will be working to build a retaining wall and to realign the Green River ramps.

During construction, trail visitors are asked to watch for construction workers, follow signs, and drive and cycle safely through the area. Trail users should not use the Green River Golf Club parking lot unless visiting the Golf Club.
