FOR IMMEDIATE RELEASE

Emergency Roadway Repair Under Way on Westbound 91, Green River Road, Corona

As part of the Riverside County Transportation Commission's 91 Project, emergency roadway repair work is taking place on westbound 91 at Green River Road starting this afternoon, requiring the closure of the two far right lanes. The roadway is expected to reopen fully on Thursday, ahead of peak commute hours.

The two far right lanes will be fully closed in the area while crews replace a section of the roadway. While there are no detours, motorists should expect significant delays. Motorists are asked to allow extra travel time, use alternate routes, and to carpool or use public transit if possible.

For questions or more information, please use the "Contact Us/Feedback" page at sr91project.info or call the helpline, 877-770-9191. In addition, frequent project updates are posted on Facebook/[sr9project](https://www.facebook.com/sr9project) and Twitter [@sr91project](https://twitter.com/sr91project).

The 91 Project is adding regular lanes, tolled express lanes, auxiliary lanes and direct express lane connectors from the northbound 15 to the westbound 91 and from the eastbound 91 to the southbound 15. Improvements to interchanges, ramps, lanes and surface streets also will be made along the 91 between the Riverside County/Orange County Line in Corona and Pierce Street in Riverside. The new lanes are expected to open in 2017.
