

SANTA ANA RIVER TRAIL PARKING LOT // FACT SHEET

FAST FORWARD

RIVERSIDE COUNTY TRANSPORTATION COMMISSION

Overview

As part of the Riverside County Transportation Commission's (RCTC's) 91 Project, a number of improvements will be made near the Santa Ana River Trail (SART) off Green River Road in Corona.

Access and safety improvements for trail users include:

- Dedicated paved parking lot located west of the Green River Golf Club entrance
- 56 ADA-compliant parking stalls
- New sidewalk and curb
- Drinking fountain

Timing of Work

Construction near the SART is expected to start in late 2014 and continue to the end of 2015.

What To Expect During Construction

The project team has developed a three-phase approach to maintain trail access during construction on Green River Road. This includes a temporary parking lot east of the Green River Golf Club as current street parking will be eliminated so crews can work safely away from trail users.

- **Phase 1** - Construct temporary parking lot (late 2014). Work on a new retaining wall along westbound 91 (late 2014/early 2015 to summer 2015).
- **Phase 2** - Construct the south side of Green River Road after new westbound 91 retaining wall is built (late summer 2015).
- **Phase 3** - Construct the north side of Green River Road after the south side of the street is completed (early fall 2015).

** Construction schedule is subject to change without notice, based on weather, field conditions or other operational factors.*

Please note that the road will have a rideable surface during construction on Green River Road. Trail users are asked to pay close attention to posted signs and to drive safely through this area. In addition, trail users should not park at the Green River Golf Club unless they are patronizing the club.

For More Information

For questions about work near the Santa Ana River Trail, please call the project helpline, 877-770-9191 or use the "Contact Us" page of the project website, sr91project.info.
